Support level

BRONZE PARTNER

Aquabox

“Technolog are very proud to support Aquabox in any way we can. We are very impressed by this local community project that has been helping communities worldwide in times of crisis. So far from us, this has been in the form of donations and a link on our website. We will be looking to do more in the future including the team building challenge of “pack a box”.”

[Sarah Thomas; Technolog Ltd]

Aquabox is a volunteer-led charity and community project which provides safe drinking water, through the use of filtration units, and humanitarian aid to crisis zones around the world. Since its formation in 1992, it has distributed more than 115,000 boxes to countries suffering from natural and man-made disasters, helping hundreds of thousands of people in more than 50 countries throughout the world.

We rely entirely on donations and the fundraising activities of our supporters to fund our work and purchase the items which we supply in the aid boxes.

Aquabox are extremely grateful to everyone at Technolog for all the support they have given us.

Technolog

Technolog Group has over 35 years' experience in the water and gas industry. They design and manufacture battery powered data loggers and electronic pressure controllers for distribution networks.

The Technolog group of companies includes Utilitec Services, a nationwide team of site engineers having specialist knowledge in Technolog products, tailored water and gas applications. In addition, Utility Data Services, which comprises two data centres responsible for collecting data from hundreds of thousands of sites every day. Technolog are now one of the world's largest collectors of machine-to-machine (M2M) data with over 400,000 GSM deployments.

Technolog have been a long-term supplier of monitoring and control devices to water and gas utilities across the world. Successful long term projects are in operation in UK, France, Spain, Malaysia, China, Indonesia, Australia, Kenya, South Africa, France, Belgium, Brazil, Argentina and many other countries.
